

Product Information

Easy activation of the safety feature

The Surshield protector is designed to allow the user's fingers to remain behind the needle point and thus minimizing the risk of an accidental needle-stick injury. Once the protector shield is activated, the needle is permanently covered, allowing the end-user to safely dispose of it.

Description	Raw Materials
1 Tube	Polyvinyl chloride
2 Wing hub	Polyvinyl chloride
3 Cannula	Stainless steel
4 Adapter	PMMA
5 Adapter cap	Polypropylene
6 Surshield protector	Polypropylene
Safety hinge	ABS
Protector	Polyethylene

Does not contain components made of DEHP or natural rubber latex.

Sterilization

With ethylene oxide to a Sterility Assurance Level of at least 10^{-6}

Storage

- Shelf life of 3 years
- The batch number and expiry date are printed on the unit pack
- Do not store at extreme temperature and humidity

Precautions

- Do not use if unit pack is damaged
- For single use only
- Dispose of safely after single use to avoid risk of infection

The safety and comfort of your patients is in your hands.
